### Prophecy Says England and France Shall Be As One

The following prophecy was written in London, Eng., in the year 1448 by Mother Shipton.

"A house of glass shall come to pass  
In England, but alas!  
War will follow with the work  
In the land of the Pagan and Turk;  
And State and State in fierce strife  
Will seek each other's life.  
But when the North shall divide the  
South

An Eagle shall build in the Lion's  
mouth.  
Carriages without horses shall go,  
And accidents fill the world with  
woe.

Primrose Hill in London shall be,  
And in its centre a Bishop's See;  
Around the world thoughts shall fly,  
In the twinkling of an eye.  
Water shall yet wonder do,  
Now strange, shall yet be true;  
The world upside down shall be,  
And gold found at the root of tree,  
Through the hills man shall ride,  
And no horse or ass be at his side;  
Under the water man shall walk,  
Shall ride, shall sleep, shall talk;  
In the air shall be seen,  
In white, in black, in green;  
Iron in the water shall float  
As easy as a wooden boat;  
Gold shall be found, and found  
In a land that's not yet known,  
Fire and water shall more wonders  
do.

England shall as last admit a Jew;  
The Jew that was held in scorn  
Shall of a Christian be born.  
Three times three will lovely France  
Be led to dance a bloody dance  
Before her people shall be free;  
Three tyrant rulers shall she see;  
Three times the people rule alone;  
Three times the people's hope is gone;  
Three rulers in succession see,  
Each springing from a different  
dynasty;  
England and France shall be as one.  
Then shall the worse fight be done."

### Track Record Broken At Cardston

At an Inter-Scholastic Track and Field Meet held in the recent past in Cardston a few Raymond athletes did themselves very proud.

Jess Gibb won the 75 yard dash; 220 yard dash; high jump; running broad jump; hop step and jump and he won the shot putt by setting a record for his class. All these and a second in the discus and a third in the javelin throw gave Jess a total of 35 points which won for him the Gold Medal for high aggregate.

Jim Walker broke a record in the high jump as well as placing front in his class in the 75 yard dash; broad jump; and the hop, step and jump. This was enough to win the Bronze Medal for 2nd place in the aggregate standings.

Allan Tollestrup won the shot putt; 440 yard dash and the javelin throw and could have gone on for more wins had there been any competition for him in his class. He also placed third in the 220 yard dash.

### THE RAYMOND LION

The Raymond Lions met at the Legion Hall at five o'clock on October 20 to begin the canvass for funds for the Canadian Institute for the Blind. This very worthwhile project is responsible for training blind people in Alberta to become self supporting. They have a very efficient school in Calgary equipped to do this work. The Lions covered the town and reported back to the club meeting at seven-thirty the same evening. The total collections amounted to two hundred fourteen dollars. This is about twenty-five percent of the amount collected in Blairmore and two-thirds as much as we turned over last year.

During the past several years the Lions Club in Raymond has carried on several worthwhile projects. They sponsored a junior baseball club for several years—equipment, suits, transportation, portable dug-outs, were all supplied as well as coaches and management. The labor and nursery stock to landscape the local hospital was all supplied by the members of this club. Considerable assistance was given in supplying the modern facilities at the Opera House. This club has had a long range plan to test and correct the eye-sight of the public school students of Raymond. Each child is given at least two examinations during his school career, and as many more as the teachers think necessary. They supervise and assist in further eye-tests and securing needed glasses. The club has been actively engaged in sponsoring a calf club in the town. This activity has been enlarged to include all fields of Agriculture. The work is now organized by the local sponsors and the Alberta Department of Agriculture to correspond to the 4-H Clubs in United States. The local Lions Club is the sponsor for the 4-H Clubs in Raymond. This club has been engaged in a continuous playground project. The original plan calls for a playground in each of the four quarters of town. Golden Snow was largely responsible for securing the site for the first unit—completed on the space east of the swimming pool—go have a look at it—see if you think it is supplying a service to Raymond Children. The next group to supply a site will get the next unit in your area. Can you suggest a site for the kiddies in your part of the community?

Circumstances over which we seem to have no control have caused us to drop the annual Lions Carnival. We are now planning a community auction sale at the end of November. You will be visited by members of the club in the next week or two to aid us in this new scheme. Dig up something of value that you do not need and offer it to the boys to auction. It will be fun and will help us continue with projects that need immediate funds.

The Committee consists of Chairman Heide Karaki and assistants Gordon Bosworth, Paul Moreland, Joe McLean, Rayo Woolf, Karl Wilde and Ted Grey.

Karl Wilde travelled to Windsor on the Empire Builder last week to attend the new car showing in that city.

The Friendship Club met at the home of Mrs. Harold Card Wednesday for their usual evening of sewing, visiting and lunch.

Mr. and Mrs. Jack Kenney spent the week-end at their farm in Brooks.

"I'm sure Grandfather wudna mind."

MISS LILA ENGBERG

The Raymond Garden Club Achievement Day was the culmination of their year's work. Efficiency winners are—1. Eva Dahl, 2. Margaret Jacobs. 1. Joanne Salmon. Margaret will receive a prize from the Alberta Wheat Pool for having the best garden. Eva will receive an award—a free trip to Olds School of Agriculture in July next year. Here she will spend a week with other Efficiency Winners from Boys and Girls 4-H Clubs throughout the Province. This award is given each year to the girl who is a co-operative, interesting and dependable Club member. She must complete the project work and have a good display. The expense of this Short Course at Olds is borne by the Department of Agriculture and the Alberta Wheat Pool, sponsoring organization.

There are 4-H projects available in Clothing, Food and Home Decoration for the Winter. If you are interested please write for information.

The Conquerville Girls Club have reorganized and are taking Clothing again for the winter. They are holding a Tea at their School on October 15th. This is a good way to entertain and interest the mothers.

### SCHOOL LUNCHES

Children get tired of only sandwiches in their lunch. Why not add a molded vegetable salad? It will be easy to carry and will keep fresh longer than tossed salad. Here is a recipe to serve six:

#### Molded Vegetable Salad

- 1 tablespoon gelatine
- ¾ cup cold water
- 1 cup boiling water
- 1 tablespoon lemon juice
- 3 tablespoons mild vinegar
- 1 tablespoon sugar
- ¾ teaspoon salt
- 2 tablespoons grated onion
- 1½ cups leftover vegetables, diced
- ½ cup diced celery or grated carrots or cabbage

Soften gelatine in cold water; add boiling water and stir until dissolved; add lemon juice, vinegar, sugar, salt and onion; mix well. Chill until partially set. Fold in vegetable and celery. Unmold on a bed of salad greens. Serve with French dressing or mayonnaise with a little vinegar added. Garnish with stuffed olives and parsley.

The Provincial Department of Agriculture published a pamphlet—"Lunch

Boxes & Hot School Lunches"—that may give some ideas. These are free for the asking. Many schools in Alberta set up a school lunch program aimed to improve food habits by providing a hot dish at the school or by encouraging parents to include hot dishes nutritious food in the lunch box. If your school desires help in getting started with such a program I will gladly visit your district.

### NEW FABRICS

Are you doing some sewing this fall?

There are so many new fabrics on the market. A few years ago we said, "There is nothing else like nylon", but now we have Dacron, Orlon, Acrilan and others.

Dacron is a crumple resisting fibre, which washes well and will dry in a flash. It is wearable without ironing.

Dynel is often found with other fibres in fleecy fabrics and soft weaves. It is warm, light and fluffy, and very strong. It is mothproof, shrinkproof, and resists mildew.

Orlon is a bulky fibre and gives warmth and coverage without weight. It is found sometimes as 100% orlon and sometimes blended with other fibres in material with the look and feel of soft silk, or fine wool or crisp linen.

Vicara is Cashmere-soft. It is frequently seen combined with other fibres. It cuts down shrinkage and stretching.

Acrilan is a washable fabric giving bulk and warmth without weight.

Sarelon is a protein fibre, made from peanuts. To some extent it resembles wool. It is not on the market yet.

Have you heard of the new metal insulated lining? It is a process which makes fashions warm in winter and cool in summer. It's really a dusting of tiny metallic particles which coat the cloth with a weightless barrier against loss of body heat in winter and absorption of outside heat in summer. Milium is one brand name. Thermalon another. According to the makers of Thermalon, one square yard of their fabric weighing 3.8 ounces has the insulation value of a square yard of wool blanket weighing 10 to 12 ounces. It sounds wonderful, doesn't it.

Have you troubles sewing Nylon fabrics? Next week I will give you some hints to make your sewing easier.

Jim Heninger and his Explorer class consisting of Jack Hicken, Delyn Hirsche, Calvin Pack, Randall Meeks and Danny Atwood enjoyed a week end trip to Great Falls.
